SENIOR DATA ENGINEER | CLOUD | BIG DATA | GEN AI

An innovative and performance-driven Data Engineer with 8+ years of experience designing and implementing big scalable data and analytics solutions across cloud platforms. Proficient in Azure, AWS, Databricks, Delta Lake, and Power BI with strong command over CI/CD, ML integration, and real-time processing. Adept in enhancing pipeline efficiency, supporting cross-functional teams, and driving actionable insights.

CORE COMPETENCIES

- **Big Data & ETL**: Spark, Azure, AWS, S3, Glue, Databricks, Snowflake, Delta Lake
- **Cloud Platforms**: AWS, Azure, OCI
- **Languages:** Python, SQL, Scala
- **Data Integration & Orchestration**: Databricks, Airflow, Kafka, REST APIs, SSIS
- **Databases**: Azure SQL, Oracle, MSSQL, MySQL, NoSQL
- **DevOps**: Azure DevOps, GitHub, Jenkins, Terraform
- **BI & Analytics**: Power BI, DAX, Tabular Editor, SSRS
- **ML & AI**: Azure ML, Agentic AI, PyTorch, LLMs, FastAPI

PROFESSIONAL EXPERIENCE

Kenvue, Bangalore

Lead Engineer | April 2026 – Present

- Architect and deliver scalable data platforms and integration solutions, enabling reliable and high- performance data processing for business-critical use cases.
- Design, develop, and implement Agentic AI solutions, LLM-powered agents, and ML pipelines to scale data platforms and support evolving business forecasting and demand-driven use cases.
- Design and optimize ETL/ELT pipelines using Azure Data Factory, Databricks, PySpark, and Delta Lake, improving data processing efficiency and reducing latency.
- Drive end-to-end data engineering solutions, from ingestion to transformation and reporting, ensuring high data quality and governance standards.
- Lead API-led integrations and SAP CPI implementations, enabling seamless connectivity across enterprise systems and third-party platforms.
- Implement CI/CD pipelines and DevOps best practices, enhancing deployment speed, reliability, and system scalability.
- Collaborate with global stakeholders and cross-functional teams to translate business requirements into data-driven solutions.
- Contribute to architecture design and modernization initiatives, aligning solutions with cloud-first and enterprise data strategy.
- Provide technical leadership, conduct code reviews, and mentor team members, improving overall team productivity and delivery quality.

IBM, Bangalore

Senior Data Engineer | Jun 2024 – March 2026

- Designed real-time ETL pipelines using Apache Spark on Azure and Databricks, improving throughput by 25%.
- Integrated SAP, Oracle, and MSSQL using AWS Glue and AWS DMS for analytics and reporting on Power BI.
- Deployed CI/CD pipelines using AWS CodePipeline, CodeBuild and CodeDeploy reducing deployment times by 40%.
- Leveraged ADLS Gen2 and Delta Lake for scalable, cost-efficient data lake architecture.
- Implemented Delta Tables on Databricks to streamline and unify batch and streaming data processing workflows.
- Engineered high-performance, real-time data pipelines using Spark, Python, SQL, and Databricks for enterprise-scale processing.

Oracle Cerner, Bangalore

System Engineer | Apr 2021 – Jun 2024

- Automated ETL pipelines on AWS and Snowflake, improved processing efficiency.
- Developed PySpark apps for distributed big data analytics.
- Built data workflows and Databricks notebooks for real-time data insights.
- Integrated Azure ML, AKS, Logic Apps into enterprise ML pipelines.
- Robust ETL workflows develop and monitored to ensure data accuracy and consistency.
- Managed version control and automated deployments using Git and GitHub to streamline CI/CD pipeline operations.

DXC Technology, Bangalore

Data Center Engineer / Service Delivery Coordinator | Apr 2019 – Apr 2021

- Built ADF pipelines and Mapping Data Flows, improved data quality and integrity
- Led multi-cloud migration projects (AWS, Azure, GCP) improved scalability and reduced costs
- Reduced downtime by 30% via Azure Monitor and Log Analytics optimizations
- Led end-to-end cloud migration projects across AWS, Azure, and GCP enhanced scalability, performance, and cost optimization.

EDUCATION

B. Tech, Apex Institute of Technology and Management, Odisha

CERTIFICATIONS

- Databricks Lakehouse & Generative AI Fundamentals
- Oracle Cloud Infrastructure AI Foundations Associate
- Oracle AI Vector Search Certified Professional
- Snowflake LLM Bootcamp – BUILD 2024
- PMI Agile & Waterfall Project Management
- LambdaTest Test Automation Professional.
